# TAF Chain Purchase Help Manual
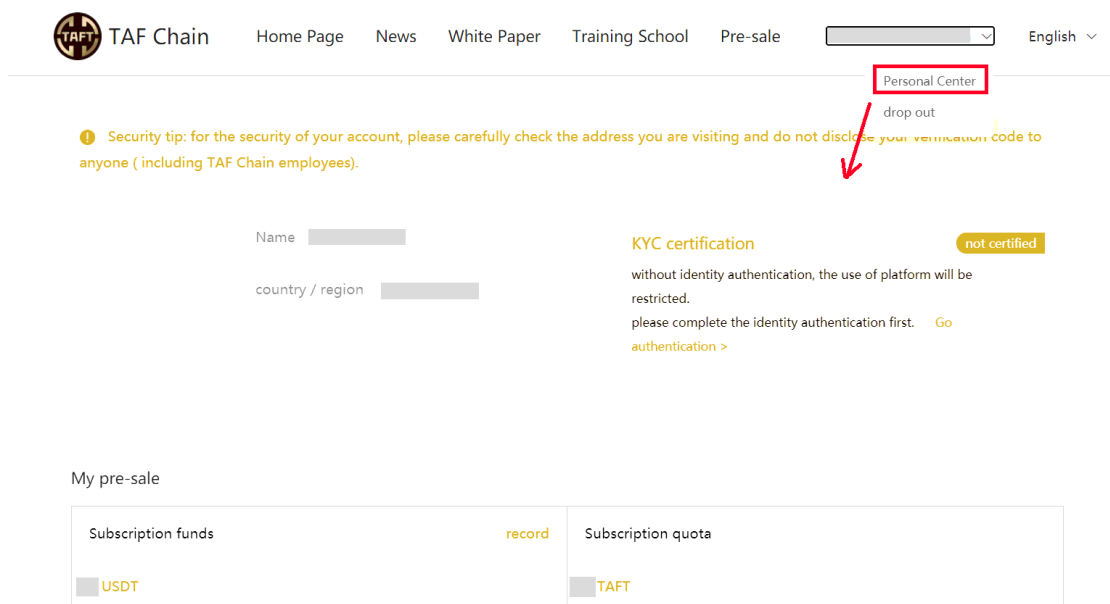

I. Register and Login

Click the "Register" button in the upper right corner of the navigation bar to enter the registration page. Complete registration with your e-mail. Then login at https://tafchain.com/#/signIn.

II. Identify Verification

After logging in, enter "Personal Centre" and click "KYC certification" to complete identify verification. Please fill in your personal details and submit the information for our staff to review.

III. Start Your Purchase

After the KYC certification (identification verification) is reviewed and approved (which normally takes 1-3 working days), you could enter the "Pre-sale" page at https://tafchain.com/#/presell and click "PURCHASE" to start your purchase.

In the pop-up window, fill in the number of the TAF Tokens you wish to buy. The system will automatically work out the amount you need to pay. After confirming the amount, please read and declare your agreement of the Purchase Agreement. Then click "NEXT".

IV. Confirm Your Payment

After filling in and confirming your purchase details, you will be presented with another pop-up window to confirm your payment. Please confirm the amount of the payment and copy your USDT_Omini address to complete the payment by USDT transfer via a third-party crypto wallet or the independent address provided by your exchange.

Confirm and complete payment

V. Alternative Payment

In case you could not pay by USDT transfer, you could alternatively make the payment via Huobi (to which you could get access by scanning the QR code below) in an OTC transaction.

Huobi Global Station App
Anytime, anywhere, convenient transaction
